

WC-MASTERPIECE
self-lifting and self-hygienizing WC seat

Compatible with conventional bowls

Fits standard and non-standard bowls

Easy to install

Installs in a few minutes just like an ordinary toilet seat

Mechanical

No electricity or batteries needed

Reliable

No electric or electronic issues

Durable

*Made of impact and corrosion resistant materials
Hinges and fixing bolts are made of stainless steel*

Clean and hygienized

*The seat ring keeps itself in the upright position
Once it has been put down, automatically returns to the upright position and is reached by a spray that hygienizes it and spreads a pleasant fragrance in the air
The efficacy of the hygienization is confirmed by many microbiological tests*

Easy to clean and to maintain

*Washable
The seat ring is easily replaceable
One hygienizing product bottle lasts 3-4 months on average*
